

# MiSSional PATHWAYS

*A network for missional connections*

*Have a great idea for a new way to reach out? Is missions tugging on your heart, but you aren't sure how to start? Wherever you are on your journey into missions, Missional Pathways is here to help.*

## The Missional Pathways process

Missional Pathways is a missional consulting network. It connects you with the skills, opportunities, resources, and expertise necessary to make your missional impulses a reality.

The network's goal is to link people together for increased effectiveness in mission – locally, regionally, and globally. Missional Pathways does not provide these skills directly. It provides connections, or “pathways,” to the resources you need to put “legs” on your missional dreams.

## The Pathways of ...

### ▶ Discernment

Enabling churches to develop a vision, individuals to discern a call to missions, and missionaries to assess their readiness for an assignment.

### ▶ Connection

Helping you identify and connect with the right mission opportunity and partners – locally or globally.

### ▶ Training

Providing you with resources and information to build missional goals and locate the appropriate training program.

### ▶ Culture

Providing you with ministry mentors, teaching you cross-cultural communication skills, and referring you to cross-cultural missions training programs.

### ▶ Practical knowledge

Advising and guiding you through IRS requirements, accounting matters, employment and legal issues, communications, fundraising, finding a framework for organizing support teams, and the screening of personnel.

### ▶ Engagement

Guiding you in church multiplication, forming missional communities, and finding a specific ministry (e.g. prison ministry, after-school program, etc.).

### ▶ Evaluation

Assessing your mission or your ministry's effectiveness.
