Kevin Nofziger, Everence, Stewardship Consultant
Deke Rider, Camp Hebron, Executive Director
Jordan Kauffman, New Person Ministries, Executive Director
Brook Musselman, ACC, Conference Coordinator

ACC - LMC Conference Related Ministry Seminar

For the last 12 years, LMC and Atlantic Coast Conference have planned a day of resourcing and networking for pastors and leaders of the ministries related to each conference.

This joint event remains a strong point of collaboration between these groups of congregations, and aims to resource CRMs to carry out the mission and ministries of the church.

A half-day conversation for leaders of conferences, congregations, conference related ministries of ACC & LMC

CONNECTING WITH YOUR PEOPLE: ENGAGING VOLUNTEERS & EMPLOYEES

February 27, 2020
9:00 am to 1:00 pm

Garden Spot Village
433 South Kinzer Road
New Holland, PA 17557

Overview of the day

Attracting, inspiring, caring for, and thanking a ministry's workers can be a challenging task in an ever-changing world. At this year's CRM Seminar, participants will use open space technology to network, share with and learn from one another on topics of their choice related to engaging these essential workers: your staff and volunteers.

Open Space Technology is a group facilitation tool centered around self-organizing and self-managing groups of people who build on the knowledge, skills, values, and attitudes that already exist within the group. Based on the idea of a coffee break, the loosely structured time will make space for conversations to happen in an efficient, effective way. Using this model, each participant will have the opportunity to suggest topics of conversation and to join in the conversations that most interest them.

We hope you'll join us and come prepared to share as an expert in some areas and to learn as a student in others as we explore effective ways to engage our people.

A big THANKS to this year's sponsors!
